# OUR *SERVICES*

We are artisans and craftsmen of beautiful brands and bespoke solutions. We get to understand the needs of our clients so that we can tailor solutions to their exact needs, and deliver high-value results that transform their projects.

## **Consultancy**

We offer consultancy services, from the selection of materials, shop drawings, procurement, to getting the approvals for scope of works from the relevant entities.

## **Fabrication**

We fabricate all the components of the clients' units in our state of the art workshop with the latest machinery to deliver next to nonquality fabrications.

## **Supervision**

We supervise projects to ensure that all the approved materials are used, and functionality of the approved system meets the client's expectations.

## **Installation**

When installing on site, we ensure that the proper measurements and placements are implemented as of the approved drawings.

# OUR PROJECTS

*At Dasha Facade Solutions Ltd, we let our work do the talking. With an extensive portfolio of successful projects, we have proven our expertise, craftsmanship, and commitment to excellence in the facade solutions industry. Each project we undertake is a testament to our passion for creating remarkable and innovative building facades that stand out in both design and functionality.*

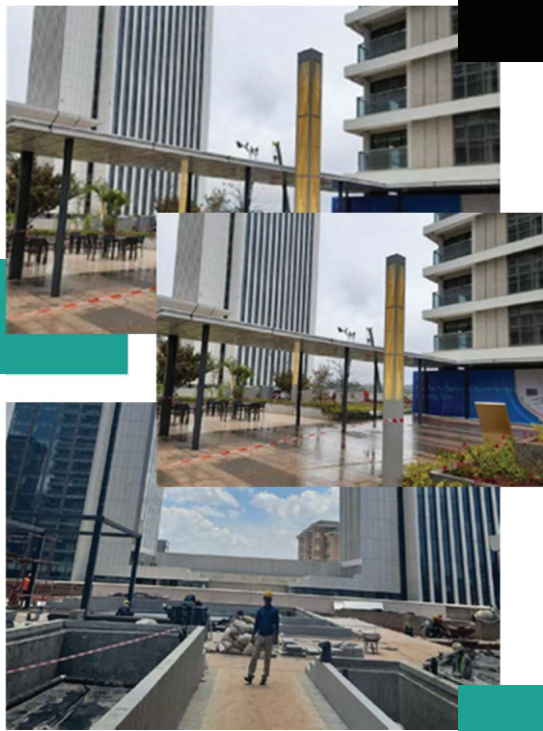

We have extensive experience working within the industry and have built excellent relationships with our clients due to our dedication to understanding all requirements and incorporating full compliance and health & safety standards.

"We are committed to all projects and looking forward to new challenges."
